INSTALLATION

- 1. Pick the headlight with the best rear access.
- 2. Disconnect the OEM power plug from the back of the headlight.

 Note: If you are struggling to locate it, the plug should look almost identical to the connection on the Noxsolis interface harness.
- 3. Connect the Noxsolis interface harness to the headlight using the MALE connection plug.
- 4. Connect the OEM power plug into the FEMALE connection plug of the Noxsolis interface harness.
- 5. The third, smaller plug on the harness is used to connect into any of the Noxsolis wiring harness kits.
